

Dear Customers

~Discontinued production Announcement~

May. 2020

Thank you very much for your continuous support.

We are sorry to inform you that we will stop our production and maintenance of long seller product as below because it is no longer possible to provide some of the parts.

We kindly ask for your understanding.

[Products Name]

Transducer for Ultrasonic Welder SONPET 2104B

[End of Production]

July, 2012

We had a reasonable number of maintenance parts in stock considering from past results, but it became difficult to provide transducer parts after the end of April because repair requests such as deterioration of parts occurred more than expected.

We apologize for the inconvenience.

We still accept repairs and maintenance other than the transducer depending on the presence of parts.

We will continue to do our best to satisfy our customers, and we appreciate your continued support.

Please feel free to contact us anytime for any inquiries.
